If a valid ballot contains one or more invalid items, the valid items will still be counted toward the voting results for those valid items.
- c) Voting by ballot begins when the Chairman of the meeting or a representative of the Vote - Counting Committee issues a command and ends when the Vote - Counting Committee collects all ballots from the attending shareholders or representatives or after 15 minutes from the time the Chairman announces the start of the voting period, whichever comes first.

REPORT OF THE BOARD OF MANAGEMENT

Ref: Production and business results in 2025 and the plan for 2026

To: THE 2026 ANNUAL GENERAL MEETING OF SHAREHOLDERS

In 2025, the global economy continues to face complex fluctuations. Although inflationary pressures have eased, potential risks remain, while monetary policies in many countries are still maintained cautiously. In addition, geopolitical uncertainties and the ongoing shift of global supply chains continue to pose significant challenges. Domestically, Vietnam's economy has recorded positive signs of recovery, supported by the Government's flexible management, stable macroeconomic conditions, accelerated public investment, and a gradually improving business environment. However, market demand has not yet been fully sustainable, and pressures related to capital and financial costs remain major challenges for enterprises.

For the construction and real estate sectors, 2025 marks an important period of transformation. The construction industry benefits from increased public investment, particularly in key infrastructure projects, but continues to be affected by fluctuations in raw material prices and increasingly intense competition. Meanwhile, the real estate market is gradually recovering after a period of stagnation, with an improving legal framework and investor sentiment. Nevertheless, challenges related to liquidity, capital sources, and product structure persist. In this context, enterprises in the industry must proactively adapt, enhance governance capacity, and optimize resources to seize opportunities and overcome challenges.

Under the close direction of the Board of Directors and the efforts of the Board of Management together with all employees, VINACONEX has continued to expand its scale and maintain operational efficiency across its three core pillars: construction, real estate, and financial investment, thereby laying a solid foundation for the Corporation to be ready for breakthroughs in the nation's new era of development.

The Board of Management respectfully reports to the Shareholders on the business performance for the fiscal year 2025 and the business plan for 2026 as follows:

- In 2025, the Corporation's scale of operations reached its highest growth level ever. Profit in 2025 exceeded the planned target and recorded strong growth compared to the results achieved in 2024.

3. Construction Activities

- In 2025, bidding activities and project development continued to be one of the Corporation's key growth pillars. The total value of newly awarded and signed contracts exceeded VND 9.2 trillion, ensuring a stable project pipeline for 2026 and providing a foundation for subsequent years, thereby strengthening VINACONEX competitiveness and position in the construction market.
- The Corporation has successfully secured and implemented numerous large-scale civil construction and transport infrastructure projects of strategic significance, including: the Eastern North–South Expressway expansion project (La Son – Hoa Lien section); Kim Long – Binh Ba Road; the Ho Chi Minh City – Long Thanh Expressway expansion project; the Ninh Binh – Hai Phong Expressway project (section passing through Nam Dinh and Thai Binh); the expansion and upgrading project of Ca Mau Airport; contract packages under the Vietnam National Universities Development Project – Vietnam National University, Hanoi sub-project; and the Headquarters Project of Military Commercial Joint Stock Bank – Binh Duong Branch, among others. These projects are not only large in scale but also subject to stringent requirements in terms of technical standards, progress, and project management.
- In parallel with domestic bidding activities, VINACONEX has actively expanded cooperation and engagement with international contractors and investors from South Korea, China, Taiwan, and Japan, aiming to enhance its presence in the FDI project pipeline—a segment characterized by high standards of technical requirements, governance, and professionalism.

In the foreign direct investment (FDI) segment, VINACONEX has signed a construction contract for the factory project of Macking Metal Technology Co., Ltd., with a value exceeding VND 154 billion, along with factory projects for ChengLoong...

- The management of construction operations has continued to be strengthened in a more professional direction, with effective control over quality, progress, and costs, thereby improving business efficiency, ensuring occupational safety, and enhancing the VINACONEX brand. Many projects undertaken by VINACONEX have been completed ahead of schedule and highly appreciated by state authorities and project owners, notably the North–South Expressway project (Van Phong – Nha Trang section). The results achieved in 2025 in the construction segment further affirm VINACONEX’s capabilities as a general contractor for key, large-scale projects such as expressways, major bridges, airports, and modern industrial parks.
- Alongside enhancing construction capacity, the Corporation has proactively implemented digital transformation in the construction sector, gradually developing a modern project management system. Specifically, VINACONEX has invested in and deployed the V-EST software (South Korea) for quantity take-off and management on a 3D platform, effectively supporting both the bidding phase and project execution management. The application of V-EST improves accuracy in quantity control, minimizes errors compared to traditional methods, and enhances labor productivity as well as the ability to manage design changes. In addition, VINACONEX continues to implement an Enterprise Resource Planning (ERP) system for ongoing projects, thereby enhancing transparency, data synchronization, and end-to-end control from planning, cost management, and contract administration to construction progress. The integration of 3D quantity management and the ERP system is gradually forming a digitalized project management foundation, contributing to improved operational efficiency and competitiveness of VINACONEX amid the construction industry’s strong shift toward modern management models.
- The financial performance of construction activities in 2025 remained stable, making a significant contribution to the achievement of the Corporation’s overall profit targets while creating capacity for investment and development strategies in the next phase.
- VINACONEX continued to receive numerous prestigious awards and recognitions in the construction industry, including: Top 2 Most Reputable Construction Contractors in 2025; Top 10 ESG Enterprises – Construction Contractor Group; and Top 500 Largest Companies in Southeast Asia (Fortune Southeast Asia 500)... thereby enhancing its image and brand in both domestic and regional markets.
- In addition to improving operational capacity and efficiency in construction, VINACONEX places strong emphasis on training and developing high-quality human resources, particularly in technical infrastructure. In 2025, VINACONEX continued to collaborate with Hanoi University of Civil Engineering to organize a formal bridging training program in Construction Engineering – specializing in Infrastructure Engineering. The program aims to develop a core workforce, strengthen internal capabilities, and prepare human resources for large-scale infrastructure projects in the future.

4. Business Investment Activities

- The VINACONEX Diamond Tower project has completed renovation works and has been officially put into operation, offering 36,000 square meters of Grade-A office space to the market. The project is currently open for sale and has been very well received by the market.
- The Hoa Lac High-Tech Park project has continued to complete land leveling and to synchronously finalize the technical infrastructure system (power supply and water supply) for Industrial Parks CNC 1 and CNC 2. Efforts to attract customers have been further intensified, while procedures have been completed to enable new investors to sublease land within the project.
- The Dong Anh Industrial Park project, with a scale of 300 hectares and a total investment of approximately VND 6,338 billion, has been approved in principle by the Prime Minister, who also approved VINACONEX as the project developer. By the end of 2025, the project's 1/2000 subdivision zoning plan had been approved.
- The Extended Hoa Binh Boulevard Urban Area Project in Mong Cai City has completed its technical infrastructure and commenced construction of the structural works, meeting the legal requirements for sales launch for the Phase 1 area. The project is currently carrying out sales activities, executing transfer contracts, and collecting payments from customers in accordance with the schedule.
- The urban area project at Km3–Km4, Hai Yen Ward (Mong Cai City) conducted sales and recognized business results in 2024 and 2025.

- The Cat Ba Amatina project (VINACONEX ITC): VINACONEX has completed the project transfer and recognized the results in 2025.
- In addition, VINACONEX has been implementing investment procedures for several projects, including an office-for-lease building in Trung Hoa – Nhan Chinh Urban Area; a mixed-use office and residential project at D9 Khuat Duy Tien, Thanh Xuan, Hanoi; and the Ngan Cau Urban Area project in Quang Nam (VINACONEX 25); while also studying investment opportunities in a number of urban and industrial park projects in Hanoi, Quang Ninh, Phu Tho, Khanh Hoa, and Ho Chi Minh City.
- The operation and exploitation of post-investment assets have remained stable and effective. Asset restructuring after investment has been carried out efficiently, contributing to the generation of capital for subsequent projects.

5. On Financial Investment Activities

- In 2025, despite the adverse impacts of overall macroeconomic challenges, strengthened corporate governance and enhanced inspection and supervision helped ensure that most subsidiaries remained profitable. Companies with significant profits included: VINACONEX Invest, VINACONEX CM, VIWACO, NEDI2, Ly Thai To Education System, and Bach Thien Loc. Several member companies recorded revenues exceeding VND 1 trillion, including VINACONEX CM, VINACONEX 25, and VIWACO.
- In 2025, the Corporation successfully divested its stake in several companies: VINACONEX 12 and VINACONEX ITC. This result not only generated significant cash flow and profits for the Corporation but also improved its financial situation, creating readily available capital to realize investment opportunities and expand production and business activities.
- The inspection and supervision of the operations of member companies have continued to be strengthened in compliance with the Law on Enterprises, thereby enhancing operational efficiency and delivering benefits across the VINACONEX system.

6. Financial and Accounting Affairs

Financial and accounting work, including the preparation, audit, and disclosure of quarterly, semi-annual, and annual financial statements, has been carried out fully in compliance with accounting standards and legal regulations on information disclosure applicable to listed companies.

7. Others

- The Corporation has strengthened its internal audit unit to enhance the effectiveness of risk management practices.
- Organizational structure, human resources, external relations, legal affairs, communications, and office administration have continued to effectively support the Corporation's business operations. Salaries, bonuses, and employee welfare policies have been maintained at a stable level.
- The activities of the Party organization, Trade Union, and Youth Union within the Corporation have been effectively maintained, contributing to the development and strengthening of corporate culture.

II. Production and Business Plan for 2026

In 2026, amid the increasingly complex geopolitical conflicts in the Middle East, which are causing unpredictable fluctuations in global fuel prices and energy costs, enterprises in the construction and real estate sectors will face multidimensional impacts, encountering both challenges and certain emerging opportunities.

Challenges:

- In the construction sector, fluctuations in raw material prices, rising labor costs, and increasing competitive pressure on bid pricing are expected to compress profit margins. In addition, increasingly stringent requirements regarding technical standards, environmental compliance, and digital transformation necessitate further resource investment for adaptation.
- The real estate market recovery remains uneven across segments, with liquidity in certain areas still low, posing challenges to project implementation and sales.

– In addition to pressures on cash flow and financial costs, amid credit controls on the real estate sector that have been loosened but not yet fully eased, enterprises are facing dual pressures from volatile fuel prices and rising input costs (cement, steel, asphalt, transportation, etc.).

Opportunities:

– First, the macroeconomic environment is expected to remain stable, with inflation under control and monetary policy becoming more flexible, thereby improving enterprises’ access to capital. Public investment is expected to continue being strongly promoted by the Government, particularly in transport infrastructure, urban development, and energy projects, creating substantial opportunities for construction companies.

– The legal framework related to real estate is being progressively improved (such as the amended Law on Land and Law on Real Estate Business), enhancing transparency and market confidence. Housing demand, particularly in major urban areas and in the affordable housing segment, remains strong, providing a foundation for market recovery.

– The shift of global supply chains and international capital flows away from unstable regions may position Vietnam as an attractive destination, thereby driving demand for industrial parks, logistics, and industrial real estate. This segment is expected to have strong growth potential in the medium and long term.

With the objective of maintaining stability across its three development pillars and sustaining its leading position in the construction industry, VINACONEX has formulated its 2026 business plan with continued growth compared to 2025, as follows:

1. 2026 planned targets:

Unit: VND billion

Indicator	Plan 2026	Actual 2025	% 2026 vs 2025
1. Consolidated – Entire Corporation			
- Total revenue and income	15,423	19,868	77.6%
- Profit after tax	1,037	3,865	26.8%
2. Công ty mẹ

- Profit after tax	1,018	3,453	29.5%
- Dividend payout ratio (%)	16%	16%	100%

2. Orientation and Solutions for Implementing the 2026 Plan

VINACONEX identifies 2026 as a year requiring proactive restructuring, strengthening of financial capacity, enhancement of risk management, and the selection of appropriate development strategies in order to capitalize on opportunities arising from market recovery while mitigating adverse impacts, with a focus on the following key solutions:

- First, strengthening the financial foundation and risk management.
Focus will be placed on reviewing and restructuring capital sources toward greater safety, reducing reliance on short-term borrowings, enhancing cash flow management, and maintaining strict cost control. At the same time, response scenarios will be developed to address fluctuations in raw material prices, interest rates, and market conditions, in order to mitigate risks during project implementation.
- Second, focusing on sectors and segments with strong potential.
Priority will be given to developing projects with good liquidity that meet real demand, such as affordable housing, social housing, industrial real estate, and logistics. In the construction segment, efforts will be intensified to participate in key infrastructure projects and projects with stable funding sources, while limiting exposure to high-risk and dispersed investments.
- Third, enhancing governance, construction capacity, and cost optimization.
Strengthen the application of technology in design, construction, and project management to improve productivity, reduce costs, and shorten project timelines. At the same time, proactively develop a stable supply chain for materials and establish long-term relationships with suppliers to mitigate the impact of price fluctuations. Optimize governance and improve the efficiency of resource utilization.
- Fourth, accelerating digital transformation and improving corporate governance.
Apply digital solutions in construction project management, finance, and human resources to enhance transparency and operational efficiency. This also serves as a foundation for improving competitiveness and enabling rapid adaptation to market changes.
- Fifth, leveraging brand value and accumulated experience.
Capitalize on the Corporation's reputation and proven capabilities built over 37 years to expand cooperation with both domestic and international partners, participate in large-scale projects with appropriate financial resources, and strengthen the confidence of customers and investors.
- Sixth, developing high-quality human resources.
Enhance training to improve professional qualifications and managerial capacity of staff and engineers; at the same time, establish mechanisms to attract and retain talent to meet the increasingly demanding requirements of the construction and real estate sectors.
- Seventh, moving toward sustainable development.
Focus on environmental standards, energy efficiency, and green development in project design, construction, and operation. This is not only an inevitable trend but also a key factor in enhancing brand value and long-term access to capital.

With over 37 years of development experience, having gone through various periods of challenges and steady growth, VINACONEX is fully confident in its ability to overcome current difficulties, seize opportunities from market recovery, and continue to affirm its position in a new phase of development.

The Board of Management would like to express its sincere appreciation to our valued shareholders, investors, and partners for their continued support and companionship with VINACONEX. We are committed to making every effort to successfully achieve the business plan set forth.

Respectfully submitted to the General Meeting of Shareholders for consideration and approval.

REPORT OF THE BOARD OF DIRECTORS

Ref: Operational Results for 2025 and Strategic Directions and Tasks for 2026

To: THE 2026 ANNUAL GENERAL MEETING OF SHAREHOLDERS

In 2025, The global economy has experienced complex fluctuations, with growth maintained at a moderate level amid persistent geopolitical risks. The continued implementation of cautious monetary policies by many major economies has affected trade, investment activities, and long-term global growth prospects.

In this context, Vietnam's economy has emerged as a bright spot, demonstrating strong adaptability and a stable macroeconomic foundation. In 2025, GDP growth reached approximately 8.02%, ranking among the highest in the region and globally. The scale of the economy continued to expand, driven primarily by the robust recovery of the manufacturing and export sectors, the spillover effects of public investment, the stability of FDI inflows, and gradually improving domestic consumer confidence. The construction sector recorded clear signs of recovery, with public investment continuing to be strongly promoted, particularly in transport infrastructure, energy, and urban development. The real estate market has gradually regained its growth momentum as legal bottlenecks are progressively resolved, supply improves, and investor and customer confidence steadily recovers.

In this context, VINACONEX has proactively seized opportunities, leveraging its strengths as one of the leading enterprises in construction and real estate investment and business. With a flexible management strategy, stringent risk control, and proven project execution capabilities, the Corporation achieved highly positive results in its 2025 business operations. Core business segments all showed improved efficiency, making significant contributions to overall growth, thereby further reinforcing VINACONEX's position and reputation in the market and laying a solid foundation for the next phase of development.

I. Evaluation of VINACONEX Corporation's Business Performance in 2025

Through the concerted efforts of the entire system, 2025 marked VINACONEX's overachievement of all key business targets assigned by the General Meeting of Shareholders, with revenue and profit reaching the highest levels in its 37-year history of development (detailed figures are presented in the Executive Board's report submitted to the General Meeting of Shareholders).

The Corporation continues to affirm its position as one of Vietnam's leading contractors in civil, industrial, and transport infrastructure construction. Real estate investment and business activities have been maintained in a stable manner, ensuring efficient operation and exploitation of post-investment projects, while also formulating phased investment plans for new projects in line with actual market conditions. Financial investment and corporate restructuring activities have continued to deliver positive results, contributing to the Corporation's financial capacity and

opening up new opportunities and development directions. A notable highlight is the Corporation's acquisition of the State's capital stake in Vietnam Water, Sanitation and Environment Investment Corporation (VIWASEEN). Corporate culture has been maintained and further developed; employment and income for employees have improved; and the rights and interests of shareholders have been ensured.

III. The Board of Directors' Supervision of the Board of Management

The Board of Directors has diligently performed its supervisory function and provided direction to the Executive Board in managing business operations in accordance with the Resolution of the 2025 Annual General Meeting of Shareholders.

The Executive Board, headed by the General Director, has managed the Corporation's business activities in compliance with the Charter, Internal Governance Regulations, and Enterprise Registration. The Board of Directors assesses that the General Director has successfully fulfilled the responsibilities as the legal representative of the Corporation.

Key highlights in the management and administration of the Executive Board in 2025 include:

- Construction Activities:

Bidding and project development activities continued to meet set targets, with the total value of newly awarded and signed contracts exceeding VND 9.2 trillion, ensuring a stable pipeline of construction work for the coming years. Major contract packages implemented by VINACONEX during the year included: the Eastern North–South Expressway expansion project (La Son – Hoa Lien section); the Ho Chi Minh City – Long Thanh Expressway expansion project; the Ninh Binh – Hai Phong Expressway project (section passing through Nam Dinh and Thai Binh); and contract packages under the Vietnam National Universities Development Project – Vietnam National University, Hanoi sub-project, among others.

In the segment of projects funded by foreign direct investment (FDI), the Corporation signed a construction contract for a factory project for Macking Metal Technology Co., Ltd., while actively expanding cooperation and engagement with international contractors and investors from South Korea, China, Taiwan, and Japan to develop its market share in the FDI project pipeline—a segment that requires high standards of technical capability, governance, and professionalism.

Projects undertaken by the Corporation have consistently been completed on or ahead of schedule, ensuring quality, efficiency, and occupational safety, thereby affirming VINACONEX's leading position in civil and industrial construction as well as transport infrastructure. Final settlement and debt recovery activities have continued to be effectively implemented, contributing to improved efficiency in construction operations.

Alongside enhancing construction capacity, the Corporation has accelerated digital transformation initiatives to progressively develop a modern construction project management model, improve competitiveness, and minimize losses and waste. Training of human resources to capture opportunities in emerging sectors such as urban railways and high-speed rail has been largely completed.

- ***Investment and Business Activities:***

Leasing activities for land and technical infrastructure at Hoa Lac High-Tech Park, as well as office spaces in Hanoi and Ho Chi Minh City, have continued to be effectively maintained by the Corporation. For certain resort real estate projects, the Corporation is revising implementation plans to ensure investment efficiency. Sales activities at several projects, such as VINACONEX Diamond (Hanoi) and Vera City (Mong Cai City – Quang Ninh), have been accelerated to recognize part of the revenue and profit in 2025. The Dong Anh Industrial Park project is expediting the completion of legal procedures in preparation for implementation in the near future.

Alongside the recovery of the real estate market, the Corporation has intensified efforts to identify and develop new projects in Hanoi and various provinces nationwide; and has directed its subsidiaries, such as VINACONEX 1 and VINACONEX 25, to promptly complete necessary legal procedures to accelerate investment activities and bring products to market in 2026.

- ***Financial Investment Activities:***

Financial investment activities in 2025 continued to achieve positive results, with a key highlight being the Corporation's completion of its divestment from VINACONEX Tourism and Development Investment Joint Stock Company. Through its cooperation in developing the Aegis International Hospital chain and the acquisition of 98.16% of the charter capital of Vietnam Water, Sanitation and Environment Investment Corporation (VIWASEEN) in December 2025, VINACONEX is gradually shifting its financial investment focus toward sustainable development and social welfare sectors (education, clean water, wastewater treatment, and environmental services).

In addition to capital restructuring, the Corporation's financial management and cash flow management have been conducted in a transparent and efficient manner, ensuring sufficient funding for business operations and avoiding any overdue debts with credit institutions. Governance of member companies has also been strengthened, contributing to stable dividend income for the Corporation.

- ***Others:***

Investor relations and information disclosure have been carried out in an open and transparent manner, in compliance with legal regulations and the Corporation's Charter. The activities of the Party organization, Trade Union, and Youth Union within the Corporation have been consistently maintained. Employees have been provided with stable employment and relatively competitive income compared to the industry average. The provision of information on the Corporation's operations to shareholders, investors, and state management authorities has been conducted fully, promptly, and transparently.

IV. Some Ongoing Issues

- Significant fluctuations in input material prices during 2025, along with increases in fuel prices toward the end of the year, adversely affected both the progress and economic efficiency of construction projects, particularly transport infrastructure projects.
- The rapid expansion of large-scale real estate projects in major cities such as Hanoi, Quang Ninh, Da Nang, and Ho Chi Minh City led to a sharp increase in labor demand and wage rates, forcing enterprises to face the risk of labor shortages or engage in escalating competition over labor costs.
- Although the real estate market has shown signs of recovery, it still contains potential risks; as a result, the effectiveness of the Corporation's real estate investment and business activities in certain projects has not met expectations.

V. Directions for the Board of Directors' Activities in 2026

In order to build on the achievements of 2025, successfully accomplish the 2026 business plan, and create momentum for breakthrough development toward 2030, the Board of Directors has identified the following key tasks for the year:

- Direct, coordinate with, and supervise the Executive Board in implementing solutions to achieve the 2026 business plan approved by the General Meeting of Shareholders; develop flexible governance and management scenarios to meet growth targets across the three core business areas: construction, real estate investment, and financial investment.
- In the construction sector: Focus resources on ensuring the timely, high-quality, and efficient completion of ongoing projects; intensify participation in FDI projects to maintain a stable workload; and seek opportunities to engage in urban railway, high-speed railway, and social housing projects. Continue to strengthen receivables management, debt recovery, and project finalization in line with completion schedules.
- In the real estate investment and business sector: Continue to effectively exploit existing commercial office spaces and industrial park infrastructure; accelerate the investment, development, and commercialization of new real estate projects; and closely monitor domestic market supply–demand dynamics to formulate appropriate investment strategies.
- Maintain financial stability and secure sufficient funding for the Corporation's development plans; review and enhance the management of operations across all subsidiaries; and carry out M&A activities with a focus on sectors aligned with sustainable development and social welfare (education, healthcare, clean water, and wastewater treatment).
- Strengthen communication efforts to promote the image and brand of VINACONEX.

- Continue to consolidate and improve the organizational structure of the Board of Directors, the Executive Board, and other key personnel across the system.
- Ensure employment and improve income for employees, safeguard the rights and interests of shareholders, and continue to fulfill the Corporation's social responsibilities to the community.

On its 37-year journey of construction and development, the Board of Directors of the Corporation sincerely thanks our shareholders, investors, and partners for their continuous support and partnership with VINACONEX. We look forward to continuing to receive your shared commitment so that VINACONEX can break through with strength and achieve even greater success in the years ahead.

The Board of Directors respectfully submits this report to the General Meeting of Shareholders for consideration and approval.
